***Response to Amendment***

1. Applicant's amendment received on June 17<sup>th</sup> 2005 in which claims 55, 59, and 65 were amended has been fully considered and entered, but the arguments are moot in view of the new ground(s) of rejection.

***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

3. Claims 53-70 are rejected under 35 U.S.C. 102(e) as being anticipated by Kashiwagi et al. (US Patent no. 6907190).

Art Unit: 2613

Regarding claims 53, 59, and 65, Kashiwagi et al. discloses an encoding means for encoding moving pictures data using a predictive encoding means (See fig. 25, decoder 300); designating information supplying means for supplying information designating a decoding starting picture and a display starting picture (See fig. 26 decode system controller 2300, and 2100 inputting designating information, and col. 29, lines 61-67, col. 30, lines 1-3), and for supplying information designating a decoding terminating picture and display terminating picture in the moving picture data (See Kashiwagi col. 31, lines 10-67), and recording means for recording moving picture data encoded and the designating information supplied by the designating information supplying means (See Kashiwagi col. 10, lines 23-33), wherein an additional recording can be designated by the information supplied by the designation information supplying means responsive to a user input (See col. 11, lines 10-18, col. 14, lines 30-42, and col. 35, lines 21-32).

As per claims 54, 56, 60, 62, 66, and 68, most of the limitations of these claims have been noted in the above rejection of claims 53, 59, and 65. In addition, Kashiwagi further discloses encoding position of a leading or last byte of the decoding starting or terminating picture (See Kashiwagi col. 62, lines 56-67 and col. 63, lines 1-4).

As per claims 55, 57-58, 61, 63, 67 and 69, most of the limitations of these claims have been noted in the above rejection of claims 53, 59, and 65. In

Art Unit: 2613

addition, Kashiwagi further discloses encoding as information a display start time point and display terminating time point (See col. 24, lines 8-20).

1. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
